Dr. Norbert Enders

Dear Colleagues and Friends

We cordially invite you to a weekend-seminar with **Dr. Norbert Enders**.

German homeopathic physician Dr. Norbert Enders is one of the most experienced contemporary practitioners. After his medical studies, he started exploring indigenous remedies in the Far East as well as Central America. He became a student of Professor Mathias Dorcsi at Vienna University and took up teaching at several universities himself. After decades of running a successful homeopathic clinic in Germany, he lived and worked in the South of France. In 2015 he moved to the Philippines. In the true spirit of Hahnemann, he dedicates his time to teaching, and is treating patients living in the slums of Cebu. His numerous, user-oriented publications are well-known and appreciated not only by experts. Dr. Enders' deeply sensitive, refined and continually revised monographs of single remedies are particularly impressive.

The focus of this two-day seminar will be on the evaluation of the objectively ascertainable physical signs / stigmas and/or physical gestures, facial expression and bearing of a host of different remedies. This will enable us to extend the normal course of verbal case-taking. Thus gaining even more assurance in prescribing the right remedy. As always, we can look forward to Dr. Enders' own way of vividly displaying the richness of his knowledge. His presentations will be furnished with photographs and video clips, which will prove to be immediately beneficial to our own day-to-day practice. After more than a year of planning, I'm particularly happy to be able to invite you all – homeopathic physicians and practitioners as well as non-professionals – to this exciting weekend with Dr. Norbert Enders.

The seminar will be held in German, translation provided.
